

School of Instruction

2021

As you begin to review the messages within this School of Instruction, remember it is our desire, hope and prayer that you and all of your officers and members are able to benefit from this non-traditional sharing.

All documents contained within this School are designed to be shared with your chapters, officers and members. They are not under copyright protection and designed to be tools for your benefit. These pages are available for your to copy and distribute.

We ask that you “keep this notebook complete” so that it can be shared intact with your members.

Maybe create a plan to allow members to “check out the notebook” and return for others to share.
